

AMENDMENTS TO INTERNATIONAL ENERGY CONSERVATION CODE

- G. The International Energy Conservation Code adopted by reference in Section 101.4.7, 2000 International Building Code is hereby amended as follows:

1. Section 502.1.3 (Recessed lighting fixtures) is amended by deleting items number two and three under said section.
2. Section 502.1.4.1 (Window and door assemblies) is amended by adding the following to the end of the section:

“Single pane windows shall not be allowed in the building envelope.”

3. Section 502.1.4.2 (Caulking and sealants) is amended by adding the following to the end of the section:

“Attached garages shall also have all header and top plate penetrations sealed in accordance with this section.”

4. Section 503.1 (General) is amended by adding the following at the end of the section:

“Exception. Electrical resistance heat may be used as the primary source of heating for buildings or spaces which have five hundred (500) square feet or less of floor area.”
